Michael N. Martinez

Lemoore, CA 93245 | +1 (520) 244-6387 | mikeyjr355@gmail.com | linkedin.com/in/michael-n-martinez | Open to Relocation

Objective

Creating meaningful impacts in the field of Mechanical Engineering, with interests in mathematics, machine design, robotics, and avionics.

Education

California State University, Fresno — Fresno, CA

B.S. Mechanical Engineering | GPA: 3.11 | Dean's List (2 semesters) — *Expected May 2029*

- **Relevant Coursework:** Thermodynamics (Spring '27), Circuit Analysis (Spring '27), Product Development (Spring '27), Mechanics of Materials, Object Oriented Programming (Spring '27), Advanced Engineering Mathematics, Organic Chemistry

Lemoore Community College & Lemoore Middle College High School — Lemoore, CA

Dual Enrollment | Golden Diploma | Honors x8 — *Aug. 2020 – May 2024*

Work & Research Experience

Personal Math Tutor — Aug. 2023 – Present

Freelance — *Lemoore, CA*

- Worked with struggling high school students to boost their understanding of various subjects such as biology, history, and math
- Utilized an adaptive teaching method to better cater to each student's individual learning styles

Engineering Projects

Chassis Design for Underwater ROV | *Fresno State AVI Robotics*

- Utilized SolidWorks to aid in the design process of a functional chassis capable of housing crucial electronics and withstanding underwater pressure

Structures Team Member, NASA Student Launch Initiative | *Fresno State AIAA* — Sep. 2026 – Present

- Conducted technical materials and manufacturing research to develop mold designs used to create the body tube, nose cone, and fin can
- Performed a body tube layup using a male mandrel, epoxy, fabric, and heat shrink tape to create the body tube for the subscale rocket

Micromouse Project Manager | *IEEE Fresno State Student Branch & Fresno State AVI Robotics*

- Created an organizational outline for team operations and successfully revived the Fresno State Micromouse Competition Team
- Collaborated with AVI Robotics and IEEE student branches to coordinate local Micromouse competitions

Leadership & Involvement

Treasurer — May 2026 – Present

SHPE Fresno State Student Branch — *Fresno, CA*

- Created the organization's first working finance spreadsheet to easily keep track of incoming funds as well as expenses
- Collaborated with other SHPE board members to develop a budget that supports travel expenses, future event planning, and materials for technical workshops

Event Coordinator — Jan. 2026 – Present

IEEE Fresno State Student Branch — *Fresno, CA*

- Orchestrated technical workshops on PCB Design, Soldering, and Python, providing direct engineering training for 50+ students
- Facilitated industry tech talks, connecting students with professionals to bridge the gap between academic theory and real-world engineering applications

Technical Skills

Languages: C++ (Spring '27), MATLAB, Python
Software: Microsoft Excel, Microsoft Word, SolidWorks, AutoCAD, OpenRocket, Visual Studio Code
